

Securing IM and P2P Applications for the Enterprise

By Paul Piccard, Marcus Sachs, Brian Baskin

Syngress Media, U.S., United States, 2005. Paperback. Book Condition: New. 226 x 174 mm. Language: English . Brand New Book. This book is for system administrators and security professionals who need to bring now ubiquitous IM and P2P applications under their control. Many businesses are now taking advantage of the speed and efficiency offered by both IM and P2P applications, yet are completely ill-equipped to deal with the management and security ramifications. These companies are now finding out the hard way that these applications which have infiltrated their networks are now the prime targets for malicious network traffic. This book will provide specific information for IT professionals to protect themselves from these vulnerabilities at both the network and application layers by identifying and blocking this malicious traffic. This title provides a recent study by the Yankee group ranked managing and securing IM and P2P applications as the number 3 priority for IT managers in 2004. It includes the recently updated SANS/FBI top 10 list of vulnerabilities for computers running Microsoft Windows contained both P2P and IM applications for the first time. It contains the recently released Symantec Threat Assessment report for the first half of 2004 showed that 19 of the...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
