MALAWI: MALARIA OPERATIONAL PLAN FY 2015

Createspace, United States, 2015. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Malaria prevention and control are major foreign assistance objectives of the U.S. Government (USG). In May 2009, President Barack Obama announced the Global Health Initiative (GHI), a six-year, comprehensive effort to reduce the burden of disease and promote healthy communities and families around the world, with a focus on women and girls. The President's Malaria Initiative (PMI) is a core component of the GHI, along with HIV/AIDS and tuberculosis. PMI was launched in June 2005 as a five-year, \$1.2 billion initiative to rapidly scale up malaria prevention and treatment interventions and reduce malaria-related mortality by 50 in 15 high-burden countries in sub-Saharan Africa. With passage of the 2008 Lantos-Hyde Act, funding for PMI has now been extended and, as part of the GHI, the goal of PMI has been adjusted to reduce malaria-related mortality by 70 in the original 15 countries by the end of 2015. This will be achieved by continuing to scale up coverage of the most vulnerable groups - children under five years of age and pregnant women - with proven preventive and therapeutic interventions, including artemisinin-based combination therapies (ACTs), insecticide-treated nets (ITNs), intermittent preventive treatment of pregnant women (IPTp), and indoor residual spraying (IRS). Malawi became a PMI focus country in 2006. It was one of eight countries selected in FY 2011 as a GHI Plus country, and receives additional technical and management assistance to rapidly implement GHI's approach. The Ministry of Health's (MoH) National Malaria Control Program (NMCP), with support from PMI and other partners, has been able to scale up the distribution of ACTs, IPTp using sulfadoxine-pyrimethamine (SP), and ITNs, despite a weak health infrastructure. The 2012 Malaria Indicator...
