Drugs, Crime, and Their Relationships: Theory, Research, Practice, and Policy

By Glenn D. Walters

Jones and Bartlett Publishers, Inc, United States, 2013.

Paperback. Book Condition: New. 272 x 213 mm. Language:

English . Brand New Book. Surveys administered to high school

students, studies carried out on jail and prison inmates, and

interviews conducted with substance abusers undergoing

treatment all point to the same conclusion: drugs and crime

are strongly connected. Why they are connected is less well

understood, however. Written for middle to upper-level

undergraduate courses on drugs and crime or substance

abuse and crime, this book examines the drug-crime

connection in a systematic and comprehensive way. Drugs,

Crime, and Their Relationships covers the entire drug-crime

spectrum, starting with a review of drug and crime

terminology, classification, theory, and ending with policy

implications for prevention, harm reduction, and macro-level

management of the drug-crime problem. The opening

chapters discuss drugs and crime separately for the purpose of

setting the stage for later discussions on drug-crime

relationships. As the book proceeds, the boundaries between

drugs and crime blur, thus revealing the complex and intimate

relationship that links these two behaviors. Drugs, Crime, and

Their Relationships is divided into four sections. The first

section offers an introduction and overview of theories on

drugs, crime, and their relationships....

Reviews

Definitely among the best book I have got possibly study. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Olga Ledner MD**

Complete guide for publication enthusiasts. I have read and i am sure that i will going to study again once again in the future. Your way of life period will be transform once you total looking over this publication.
